

GREAT WOLF H₂O: DID YOU KNOW?

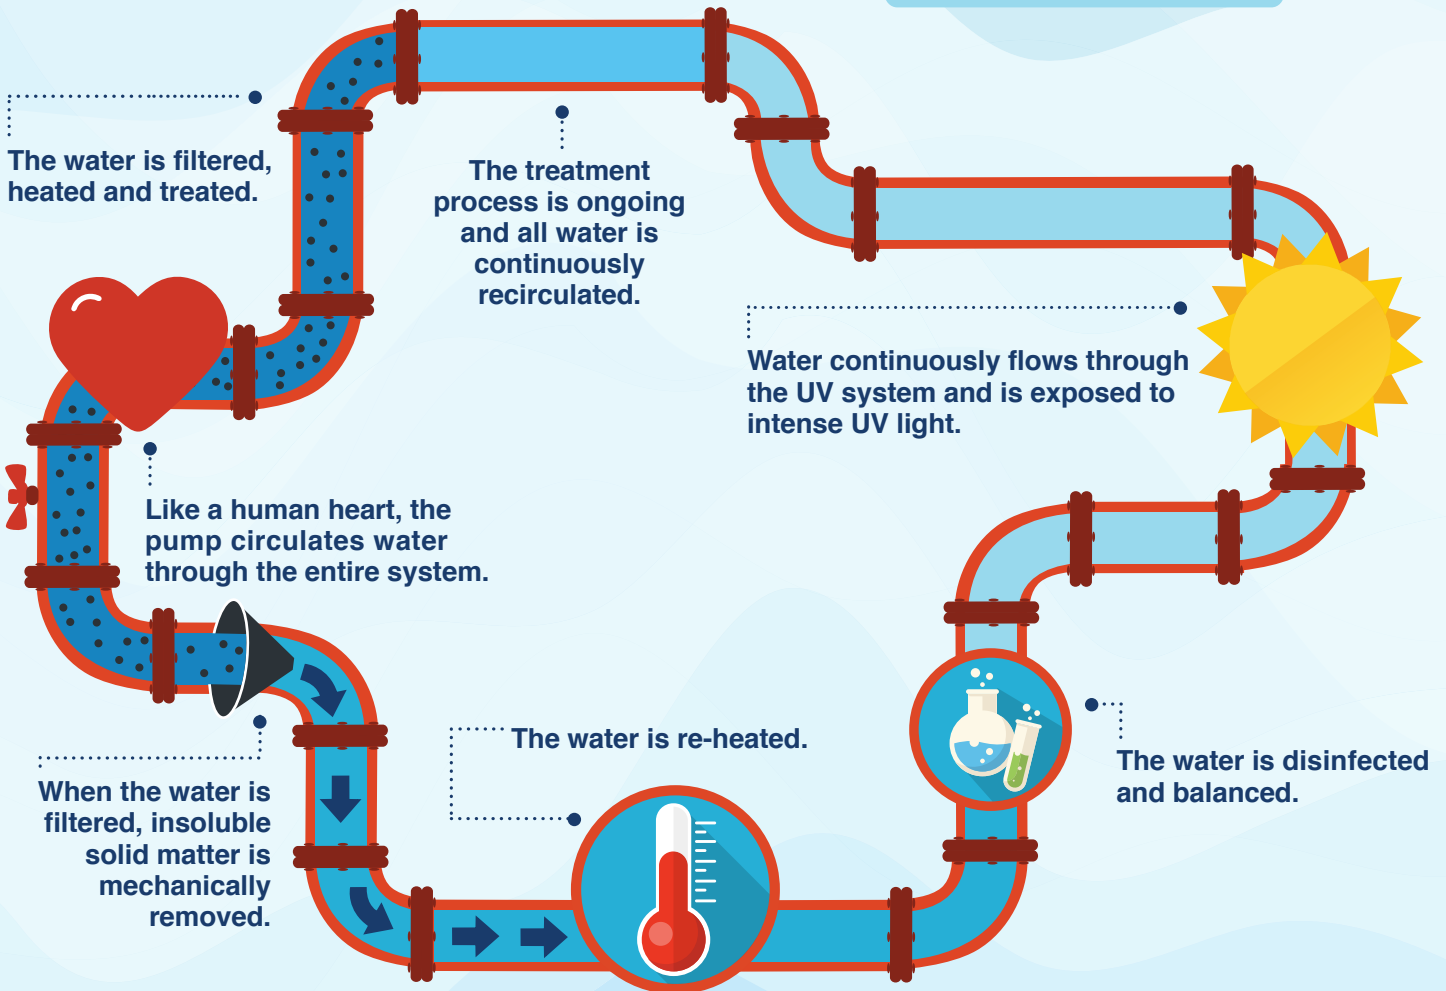

Just how much water is in our indoor water park?

565,000
GALLONS.

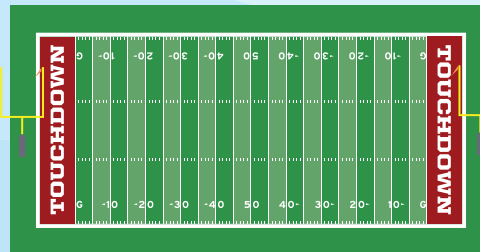

That's **LESS** than **ONE** Olympic-size swimming pool.

The Fort Mackenzie play structure recirculates 21,619 gallons of water every 30 minutes.

Our indoor water park has over 4,000 feet of water slides. That's like sliding down 13 football fields!

Southern California
